ARNOLD L. RANDALL, General Superintendent

requesting authorization for the Forest Preserve District of Cook County (the "District") to enter into an Intergovernmental Agreement ("IGA") with the Illinois State Toll Highway Authority (the "Tollway").

OFFICE OF THE GENERAL SUPERINTENDENT (continued)

ITEM #15 cont'd

Reason: The Tollway has a need to mitigate wetland impacts anticipated as part of their plans to widen the I-90 corridor. The District, in cooperation with the Tollway, identified the Orland Grassland South Preserve as a site that would uniquely meet the specific criteria needed for the Tollway's project. This site was recently acquired and is in agricultural use. The estimated cost of the proposed restoration and other improvements is \$4 million.

The IGA details the responsibilities of both parties related to the project. The Tollway will be responsible for design, engineering and construction of the restoration and development of the site, as well as monitoring and maintaining the restoration project for a five (5) year period in compliance with their mitigation requirements. The ecological restoration will include restoring wetlands, grasslands and other habitats and re-meandering the stream that cuts through the site. Improvements on the site will include developing parking, trails, boardwalks, a picnic shelter and restroom and will be paid for by the Tollway. Along with allowing the work on its property, the District will be responsible for reviewing plans and specifications and for the long term maintenance and management of the restoration and development work.

The District and the IDNR acknowledge that these dams fragment the rivers by creating barriers that prevent the free movement of fish and other aquatic organisms. The dams also present safety hazards to people recreating on the waters near the dams. ARNOLD L. RANDALL, General Superintendent

requesting authorization for the Forest Preserve District of Cook County (the "District") to enter into an Intergovernmental Agreement ("IGA") with the North Palos Fire Prevention District (NPFPD), Palos Heights, Illinois.

Reason: The proposed IGA will allow the North Palos Fire Prevention District to practice search and rescue and fire suppression tactics at a currently used former resident watchmen facility. This agreement will strengthen the relationship and partnership between governmental agencies and save the District the cost of demolition on a decommissioned, vacant former Resident Watchman facility. ITEM #18 REFERRED TO REAL ESTATE COMMITTEE (Communication No. 13REAL0002)

The area requested for the License is 0.976 acres. The Village indicates that 33 trees will be removed and another 39 trees may be impacted by construction.

Reason: The Village operates and maintains existing 12-inch and 20-inch water mains at this location under License 605 granted by the District in 1965.
